

One World Biosolutions for One Health

Esco Aster Pte. Ltd. is a vertically-integrated contract research, development and manufacturing organization (CRDMO) that provides customers with proprietary best-in-class patented manufacturing platforms for fastest time to market and 13485 medical device transdermal hollow microneedle drug delivery systems.

Esco Aster provides professional services at affordable costs, enabling reliable and linearly scalable outcomes in medical devices, diagnostics, biologics, medicines, therapies, cosmeceuticals, and cellular agriculture.

Together with our customers, we work on an interconnected "One World Biosolutions for One Health" approach geared towards self-sufficiency and to bring the next biosolution from labbench to clinic and to life.

Join us for the world we are making, redefining BioSolutions for the current and future generations to come, transcending planetary boundaries, sustainability, and One Health (*Animal, Humans, Planetary*).
